

## Calculator: How much you can earn when investing with Trigea

The expected annual return over the investment period is %\*\*

Initial one-off investment

Regular monthly investment

How long you will invest for

Your total deposits

Yield on deposits

Total value of the investment at the end\*

The calculation is based on the expected yield, but future returns are not guaranteed. Constant fluctuations in the value of units are an inherent feature of investment funds. All investment instruments entail a risk of loss. Any references to past performance are for information only and do not represent a guarantee or a reliable indicator of future returns. The return on investment is not guaranteed. For further information, please refer to the Statute and Key Information Document of the Fund.

\*THE CALCULATION DOES NOT INCLUDE FEES AS PER THE PRICE LIST.

\*\*The assumed annual return shown represents the average annual performance of the fund from its establishment until 12.10.2024, when the returns were modelled.
